TRACTION CO. SEEKS FARE INCREASES

FILES APPLICATIONS  
WITH STATE BOARDS  
AND AT WASHINGTON

**Propose to Establish Zone System  
on East Liverpool-Wellsville Line  
And Ask 8-Cent Fare on Hilltop  
Divisions And Higher Rates on  
Interurban Road.**

Substantial increases in fares on every division of the Steubenville, East  
Liverpool and Beaver Valley Traction company, except the Chester-East Liver-  
pool and River road lines, are provided in new tariff schedules filed simulta-  
neously with the Interstate Commerce Commission at Washington, D. C.,  
the Ohio Public Utilities Commission at Columbus and the Pennsylvania Public  
Service Commission at Harrisburg, Pa. It was announced today.

The new schedules, if approved, will become effective September 10. A  
zone system is proposed on the East Liverpool-Wellsville city line, which  
would require a 15-cent fare for the entire trip from the state line to Woos-  
ter's stop in Wellsville. Five-cent fare zones would be observed from the state  
line to the Diamond, from the Diamond to Kountz avenue and from Kountz  
avenue to Wooster's.

Fares on both the Pleasant Heights and Grandview divisions would be  
increased from five cents to eight cents. Free transfers will be granted on  
all lines except the Chester-East Liverpool division under the proposed rate  
change.

Service rates on both the Beaver and Steubenville divisions of the traction  
system would be advanced under the new schedule. The far to Midland, Pa.,  
would be increased from 15 to 25 cents, the fare to Steubenville from 45 to 60  
cents. The minimum fare on the "Yellow cars" would be ten cents irrespec-  
tive of the length of the ride. Strips of 54-trip commutation tickets good for  
continuous trips between any two points on either the Steubenville or Vanport  
divisions for the current month in which issued at a cost of 80 per cent of the  
regular fare will be issued when the regular fare is 15 cents or more for  
single trips.

Proposed Tariff Changes

Here are some of the important changes in the new tariffs:

Main Line, East Liverpool to Wellsville—State line to Wooster's, 15 cents  
(old fare 5 cents); state line to Diamond, 5 cents; Diamond to Kountz ave-  
nue, 5 cents; Kountz avenue to Wooster's, 5 cents. Thompson Park (Grand-  
view line)—New fare, 8 cents; old fare 5 cents. Wyoming Place (Pleasant  
Heights line)—New fare 8 cents; old fare 5 cents. East Liverpool-Beaver  
Interurban Line—East Liverpool to Midland, 25 cents one way; old rate, 15  
cents.

East Liverpool-Steubenville Interurban Line—East Liverpool to Steuben-  
ville, 60 cents, plus war tax; old rate, 45 cents.

Rules and regulations governing the proposed changes in tariff follow:

1. First class passenger fares quoted herein, are limited to two years  
from date of sale and will be void after said two-year period.
2. The fares quoted herein do not allow any stop-over privileges.
3. Chartered Car service will at all times be subject to the convenience of  
the company, and arrangements for such service must be made at the office  
of the Company.

Rules And Regulations

4. Strip tickets of fourteen (14) coupons each will be issued for one (1)  
dollar each strip, and good for one continuous trip only between Terminal,  
East Liverpool, Ohio, and Chester, W. Va., and good for continuous trip only  
in any zone the fare of which is quoted herein as being eight (8) cents.

Fifty-four (54) trip Commutation Tickets will be issued good for contin-  
uous trip only between any two points on line between Steubenville, Ohio, and  
Vanport, Pennsylvania, for the calendar month in which issued and for the use  
of the person to whom issued at eighty (80) per cent of the regular one-way  
fare quoted herein when such fare is fifteen (15) cents or more one way.

5. Unused regular fare tickets, valid for passage over the lines of this  
Company are redeemable at purchase price by the original purchaser at the  
Main office of the Company within two years from date of purchase.

A refund will be made to the purchaser of a fifty-four (54) trip Commu-  
tation Ticket, for the portion not fully used on the basis of single trip fare rates  
named herein, covering the number of single trips made during the current  
calendar month by the purchaser.

6. No baggage will be checked for transportation. Hand baggage limited  
to one hand-bag and one suit case accompanied by passenger will be carried  
free at the risk of the passenger. Hand baggage will not be permitted to be  
left in the passageway.

7. Dogs will be carried on the passenger cars of this Company for twenty-  
five cents each, however no dogs will be permitted upon or in any part of the  
passenger car except upon the platform, that no dog will be carried unless he  
is securely muzzled or safely confined in a crate, basket or ventilated box.

MAN, STRUCK OVER HEAD  
WITH BASEBALL BAT, DYING

**Erminio Socco, 52, Jeweler,  
Probably Fatally Injured  
In Fight In Boarding House  
In Midland—Man and Wo-  
man Held.**

Erminio Socco, aged 52, Midland  
jeweler, is dying at the East Liver-  
pool City hospital today as the result  
of a fractured skull said to have been  
received during a quarrel at the home  
of Frank Poff, Italian, Pennsylvania  
avenue, Midland, with whom Socco re-  
sided. Poff, who is alleged to have  
struck Socco over the head with a  
baseball bat, and his wife, are being  
held in the Midland jail awaiting the  
result of the man's injuries.

According to the story told the po-  
lice, Poff, who is employed on the  
night shift at one of the Midland  
mills, returned to his home about 7  
o'clock this morning. On entering  
the house he heard sounds of a scuffle

in the basement of the house. He  
rushed to the basement and found his  
wife struggling with Socco, it is al-  
leged. The enraged husband picked up  
a baseball bat and struck Socco over  
the head several times, knocking him  
unconscious.

Officer Joe Eckels, of the Midland  
force, who was passing the home,  
heard the racket and going to the  
basement found Socco lying on the  
floor in a pool of blood. Poff and his  
wife had gone up stairs when the of-  
ficer arrived. An ambulance was sum-  
moned and the injured man rushed to  
the hospital here.

An examination, made at the hospi-  
tal by Dr. C. H. Bailey, disclosed that  
the injured man was suffering from a  
fractured skull.

Light Vote in Dayton.

DAYTON, Aug. 10.—Although Day-  
ton is the home of the Democratic  
presidential nominee, the vote today  
is running very light. Up to 11 o'clock  
there was but about 10 per cent of  
the registration in. The Republicans  
were reporting earlier and more num-  
erously than the Democrats.

WAGE RAISES  
GIVEN EXPRESS  
CO. EMPLOYES  
BY RAIL BOARD

**Increases Will Total Approx-  
imately \$30,000,000  
a Year.**

**AFFECT 75,000 PERSONS**

**New Scale is Flat Addition  
of 16 Cents An  
Hour.**

CHICAGO, August 10.—Increases in  
wages to employees of the American  
Railway Express company which will  
total approximately \$30,000,000 a year,  
were announced by the railway labor  
board here today. About 75,000 per-  
sons will participate in the award.

The raise is a flat addition of 16  
cents an hour to the pay of all em-  
ployees who come under the heading  
of "employees and subordinate offi-  
cials" within the meaning of the  
transportation act. The unions had  
demanded 25 cents an hour. Union of-  
ficials, waiting in Chicago for the an-  
nouncement of the award, declared af-  
ter a preliminary examination of the  
announcement, the award would be ac-  
cepted for the present at least. It will  
later be submitted to the member-  
ship of the four organizations affect-  
ed through a referendum.

The four unions affected are the  
Brotherhood of Railway and Steam-  
ship Clerks, Freight Handlers, Ex-  
press and Station Employees; the In-  
ternational Brotherhood of Teamsters,  
Chauffeurs, Stablenmen and Helpers of  
America; the Railway Express Drivers,  
Chauffeurs, and Conductors, Local  
No. 7201, Chicago, Illinois; and the  
Order of Railway Expressmen.

The increases are effective as of  
May 1, 1920, and are to be paid to all  
who were in the service at that time.  
Those who have entered the service  
since that date can collect as from  
the date of their employment. All  
classes of employees affected are listed  
as follows:

- 1.—Agents, storekeepers, assistant  
storekeepers, chief clerks, foremen,  
sub-foremen, and other supervisory  
forces.
- 2.—Clerks.
- 3.—Wagon, automobile, stable, gar-  
age, platform service employees.
- 4.—Messengers and helpers, messen-  
gers handling baggage and helpers,  
guards and other train service em-  
ployees.
- 5.—All other employees except those  
coming under the provisions of the

**Russo-Polish Envoys Will Dis-

**WAR CLOUDS ARE LIFTING**

**Allies Prepare Act In Event  
of Soviet Pact With  
Germany.**

BY EARLE C. REEVES

LONDON, Aug. 10.—Premier Lloyd  
George told the house of commons this  
evening that he is still hopeful that  
peace will be made by the soviet gov-  
ernment of Russia. The premier made  
it plain that Great Britain and France  
do not contemplate declarations of  
war against Russia.

The next action of the allied na-  
tions, he said, will be economic pres-  
sure to compel the Russian soviet gov-  
ernment to release its strangle hold  
on Poland. This pressure will come  
either from naval action or from com-  
bined international action, the pre-  
mier declared.

The allies are justified in demand-  
ing guarantees that Poland will not  
be attacked again and that Poland will  
not be the victim of unjustified re-  
prisals that may threaten her national  
existence, Premier Lloyd George added.

"Even in the event of the failure of  
the armistice negotiations between  
the Poles and Russians at Minsk no  
allied troops will be sent to Poland,"  
said the prime minister. "It is un-  
necessary to send any allied troops if the  
Polish resources are organized prop-  
erly."

"The Poles have been warned that  
they must accept allied advice and  
direction and we have lectured them  
for refusing it in the past."

PARIS, Aug. 10.—The allies have  
formally assured Poland that if the  
Minsk armistice negotiations reveal  
an agreement between soviet Russia,  
and Germany by which Germany gets  
territory guarantees to Poland by the  
Versailles treaty, the allies will ad-  
vance from the Rhine to force Ger-  
many to respect the peace treaty, it  
was learned at the French foreign  
office this afternoon.

It is admitted in semi-official circles  
that a blockade would be without

GOLDEN RULE IS  
VINDICATED BY "LIFER"

COLUMBUS, Aug. 10.—"The  
golden rule has been vindicated."

This comment was made by War-  
den Thomas, of the penitentiary,  
when Thomas Warren, colored,  
the warden's cook, returned to the  
big state prison.

Warren, a trusty, walked away  
while Warden Thomas was address-  
ing a Sunday night audience in a  
local church on the "Golden Rule  
Applied to the Handling of Prison-  
ers."

The prisoner, who is serving a  
life sentence from Butler county for  
murder, told Warden Thomas he  
had wandered about Columbus.

TURKISH PACT  
SIGNED TODAY

**Last Peace Treaty Growing  
Out of World War  
is Sealed.**

PARIS, August 10.—The Turkish  
peace treaty was signed today at  
Sevres, four miles northeast of Ver-  
sailles. This was the last treaty  
growing out of the world war.

Servia refused to sign on account of  
dissatisfaction over the allotment of  
the Turkish debt.

Action in getting the Turkish treaty  
out of the way, came as a surprise be-  
cause it previously had been stated  
that "on account of the chaotic con-  
dition of affairs in the Near East" the  
signing would be postponed.

The United States was not repre-  
sented at the signature ceremonies  
as it had not formally declared war  
with Turkey.

W. N. McDONALD BODY  
TAKEN TO WOOSTER

The body of the late Major Walter  
N. McDonald who died suddenly here  
early Monday morning was taken to  
Wooster, Tuesday, where internment  
will be made. Charles McDonald, of  
Canton, father of the dead man, and  
Mrs. William L. Taylor, this city, a  
cousin, accompanied the body.

NAVAL RECRUITING  
OFFICER IN CITY

Weight limits which were absolute  
requirements for admission into the  
United States Navy, have been lower-  
ed from previous figures, according  
to George Mancosco, U. S. Navy re-  
cruiting officer, who arrived here to-  
day. Mancosco will conduct a three  
or four-day campaign here, during  
which time he will be stationed in the  
light building.

According to instructions given  
Mancosco, the physical standard for  
the acceptance of minors from the  
age of 17 to 20 years has been lowered.  
Under the new arrangements a youth  
of 17 who can make the weight of 110  
pounds and the height of 62 inches is  
eligible. For the ages of 18, 19 and 20  
years, the weight requirements are  
115, 120 and 125, respectively, while  
the height has been reduced to 64  
inches.

LENINE'S ARMISTICE  
TERMS TO POLES

LONDON, August 10.—The Russian  
soviet government's armistice terms  
to the Poles, which were officially  
made known this afternoon, include  
the following:

- 1.—Polish army to be reduced to 50-  
600 men in a month.
- 2.—Arms of the remainder of the  
troops to be given up.
- 3.—War industries to be demobilized.
- 4.—Importation of troops and mili-  
tary materials into Poland forbidden.

Despite unfavorable weather, indi-  
cations Tuesday pointed to a compar-  
atively large vote in East Liverpool  
proper at Tuesday's primary election.  
J. S. Hilbert, chairman of the Col-  
umbiana county board of elections,  
predicted between 2,000 and 2,500  
hurry the county to empwypSHRDLU  
votes in East Liverpool. "It will hurry  
the county to poll 8,000 votes," he  
added.

A survey of 13 out of the city's 16  
voting precincts at one o'clock Tues-  
day afternoon revealed a total of  
630 Republican and 71 Democratic  
votes cast. Of this number, 279 Re-  
publican and 27 Democratic votes were  
cast in the second ward, 248 Re-  
publican and 18 Democratic votes in  
the third ward. The poll in the re-  
maining precincts should bring the  
total close to 1,000.

Because of the inclement weather  
during the noon hour, many voters  
will wait until after work in the eve-  
ning to cast their ballots, it was pointed  
out. The heaviest balloting usually  
takes place in the noon hour and just  
before the polls close in the evening.

The Young Men's Republican club  
made every effort to stimulate interest  
locally in the primary. Streamers on  
the first page of both local newspa-  
pers and handbills distributed in the  
industrial plants and on the streets  
were used by the club to call atten-  
tion of voters to the day's importance.

## REPORTS FROM STOCK MARKET

NEW YORK, August 10.—The stock market contained a surprise for the speculative elements in the early trading today when the leading issues were in urgent demand.

A number of stocks moved up one to three points during the first fifteen minutes. Steel common advanced 1½ to 86, and Baldwin advanced over one point to 104½.

Crucible Steel made a gain of four points to 131½. The Petroleum stocks also showed pronounced improvement, Mexican Petroleum making a gain of 2½ to 143 and Pan-American Petroleum 1½ to 79½.

There was some weakness in Maxwell Motor common, which dropped 3½ to 7½ and the first preferred fell 1½ to 16. National Aniline was weak, falling 4½ to 70.

Railroad stocks were fractionally higher.

There was a general disposition among strong interests to buy stocks at the opening and this demand continued all through the first hour, causing a strong tone. Maxwell Motor, after its early break of 3½ points to 7½, rallied to 10.

The leading stocks acted in a strong manner, and Steel common, after being subjected to bear pressure and reacting to 85½, moved up to 85½. American International advanced 1½ to 69½. Baldwin sold down from 104½ to 103½ from which it had a quick rally to 104. Mexican Petroleum made a gain of 3½ to 154½ and Pan-American Petroleum rose two points to 79½.

## FILES APPLICATIONS

(Continued from Page One)

Referring to the proposed fare increase, C. A. Smith, general manager of the traction company, stated Tuesday:

"This Company, as the public well knows, has for many months been operating upon a basis insufficient to supply the necessary money to pay wages, maintenance and taxes, to say nothing of interest on indebtedness or return upon the stockholders' investment."

"It became apparent months ago that either relief, in the way of increased income, must be had or the entire enterprise abandoned. Ample time has been given to the various municipalities of Ohio, who by their ordinance regulations, make the operations of the company impossible, to make such modifications in their ordinances and permit the charging of such fares as would make it possible for the company to provide the public with the service, but while there has been every indication from some municipalities of a willingness to meet the situation, on the other hand other municipalities have flatly declined to render the assistance which was in their power."

"This Company has been advised that, being an interstate carrier, it is subject to the interstate commerce commission and that if there is an undue discrimination between the interstate rates and the intrastate rates, the interstate Commerce commission has the power and will suspend the operation of intrastate rates and regulations. This company, has therefore, filed new interstate rates and new state rates as above set forth and when these shall have been duly approved the interstate commerce commission will be asked to make such an order as will restrain the enforcement of the ordinances of the various municipalities in the states of Ohio and Pennsylvania, where the discrimination as between interstate and intrastate rates exists."

"Action along other lines on the part of the company necessary for its relief has been held in abeyance until the action on the interstate commerce commission has been determined."

"The jurisdiction of the interstate commerce commission in such a case has been frequently upheld. The case of this company and the City of East Liverpool concerning the Chester rates is a case in point, and the most recent case is that of the Wheeling Traction Company involving rates at Steubenville, Mingo and Brilliant in which latter case the examiner reported in favor of an order by the interstate commerce commission to restrain the enforcement of the rates provided in the ordinances of the Cities of Steubenville, Mingo and Brilliant."

Mr. Smith explained that the making of this statement is in accordance with the policy of the Company to make known to the public at the earliest possible date such of its determination as concerns the public.

from the territory they have occupied in Poland.

One demand by Moscow is that the allies compel General Wrangel's anti-Bolshevik army in southern Russia to withdraw. Moscow, it is stated, is not insisting upon the surrender of General Wrangel's forces, but only seeks to have them retire from the Crimean front where fighting has been in progress.

## \$92,000 REALTY DEAL CLOSED

Arcade Building and Provision Co. Property Change Hands.

In a deal closed Tuesday involving approximately \$92,000, the Arcade building, corner of Walnut and Fifth streets, owned by S. W. Rubin of New York city, and the East Liverpool Provision company's plant, Bradshaw avenue, owned by Frank Litten, have changed hands.

The Provision company's plant was sold by Frank Litten to Mr. Rubin as a part of a deal for the purchase of the Arcade building which involves William Litten, present lessee of a section of the building. The Litten brothers plan to continue the operation of the building under a partnership plan. The consideration involved in the deal will approximate \$80,000 it is said.

The Rosenberger Dairy and Ice Cream company of Wellsville have purchased the former Litten cold storage concern from Mr. Rubin. The purchase price is said to be around \$12,000. The plant will be surrendered to the Rosenberger interests next week. Extensive repairs and improvements will be made to the building which will be used partly as a distributing station for milk, cream and ice cream.

The Litten interests will sublet the automobile accessories agency in the Arcade building to the Standard Garage company. A group of independent concerns occupying a row of offices on the east side of the building fronting on Walnut street will remain there. The new owners, however, will assume control of the car storage and automobile repair branches of the concern and will retain the agencies of the Hudson, Essex and Dodge cars.

## SUFFRAGE OUTLOOK IN TENNESSEE BRIGHTER

NASHVILLE, Tenn., August 10.—Three things have clarified the air and made the prospect of ratification of the federal suffrage amendment by the extraordinary session of the Tennessee general assembly which convened here Monday, much brighter.

There are:

(1)—The influence of Governor Roberts' message to the legislature, "earnestly and urgently recommending" ratification without delay.

(2)—The attitude of the Republican caucus.

## DRIVE AGAINST HIGH PRICES

Fair Price Commissioner Warns Food Dealers, Clothiers; Shoe Merchants.

COLUMBUS, August 10.—"Representing 5,000,000 consumers in the state of Ohio, we hereby notify all manufacturers and producers that are marketing food commodities, shoes and clothing in this state, that we positively will not allow any increase in prices of necessities until facts proving the necessity for such increases are presented to us and meet with our approval," says an order issued today by John Pfeiffer, Ohio's federal fair price commissioner.

This order, which was issued to all county fair price commissions throughout the state, declared that dealers in men's furnishings and clothing had formed a "well laid plan" and "are conducting a campaign of propaganda, seemingly, designed to hold up prices, and to further increases prices, if possible."

"Apparently, the so-called 'manufacturers' guarantees' against decline and the closing down of some factories are part and parcel of this well laid plan," said Commissioner Pfeiffer.

## CZECHS, SLAVS AND AUSTRIA EVADE WAR

BERLIN, August 10.—Czechoslovakia, Austria and Jugoslavia, refuse to go to war despite the advance of the Russian soviet army toward central Europe, according to a dispatch from Prague today. Representatives of those countries held a conference at Prague with Chancellor Renner, of Austria, presiding, and decided not to go to war under any circumstances, the telegram said.

## BOLSHEVIK CAVALRY HAS OCCUPIED MLAVA

LONDON, Aug. 10.—Russian cavalry have occupied Mlava, cutting the Warsaw-Danzig corridor, and are now but three days' march from Warsaw, said a dispatch from Marienwarden today. If the Russians have severed the Warsaw-Danzig railway it means that the so-called corridor, connecting Poland with the Baltic, has been closed.

Tiffin, O.—1920 population, 14,375; increase since 1910, 2,481, or 20.9 per cent.

Owensboro, Ky.—1920 population, 17,142; increase since 1910, 1,413, or 8.8 per cent.

## RUSSIAN NAVY IS MOBILIZING, REPORT

LONDON, August 10.—Unofficial but trustworthy reports reached the foreign office today from Estonia that the Russian navy is being mobilized with the apparent intention of attacking Reval and Helsingfors, capital of Finland. Officials who gave out the information refused to comment upon it.

## EPIDEMIC OF MALADIES HITS NASHVILLE ASSEMBLY

DAYTON, Aug. 10.—"It is most disheartening," said Mrs. Abby Scott Baker, political chairman of the National Woman's party today upon receipt of telegrams from Nashville, Tenn., telling her that an epidemic of influenza, headache and various other maladies has suddenly broken out among members of the legislature pledged to support ratification of the suffrage amendment.

## RUSSIAN AND LATVIA TO SIGN PEACE PACT

COPENHAGEN, Aug. 10.—A treaty of peace between Russia and Latvia, will be signed at once, said a Latvian news report from Riga today. It added that the Latvian and Russian envoys who have been in conference at Riga had reached agreements on all questions under discussion.

## TWO DIE IN GRADE CROSSING CRASH

WARREN, Aug. 10.—Mr. and Mrs. John T. Johnson are both dead today as a result of a grade crossing accident when the Johnson auto was struck Monday morning by a B. & O. train. Mrs. Johnson died late yesterday and Mr. Johnson succumbed this morning. A four-year-old grandson escaped serious injury.

## PULP STONE CO LABORER INJURED

When a cable he was laying out became uncontrollable, Joseph Ahell, 35, of 1047 Hazel street, a laborer at the quarries of the International Pulp Stone company, sustained a badly lacerated left hand shortly after 6:30 o'clock Tuesday morning.

The injured man was removed to the City hospital where the little finger on his left hand was amputated at the second joint. The tendons in three other fingers on the same hand were torn.

## COUNTY NEWS

### HEAVY VOTE AT LISBON IS REPORTED

The indications are that there will be a larger vote cast at the primaries today in Lisbon and Center township than had been anticipated. This is due to the fact that the weather is such that the farmers cannot work at home and will go to the polls. At 10:30 a. m. there were 75 votes cast in the township precincts and 200 in the town. Reports from nearby townships are to the effect that the farmers are voting stronger than had been expected.

The Democratic vote will be light.

### THREE DIVORCE DECREES GRANTED

Three divorces were granted Monday and one divorce case dismissed. Laura Ransin of Wellsville was divorced from Elden L. Ransin, upon the grounds of gross neglect of duty. Grace Crepps of East Liverpool was divorced from Elms Crepps on the grounds of three years' wilful absence. Fred W. Scott of East Liverpool was divorced from Irene Scott on the grounds of wilful absence.

The case of Margaret Richards of East Liverpool against Thomas Richards was dismissed upon the motion of the wife, who brought the suit.

### FIND WOMAN'S BODY IN RIVER

Detroit Police Baffled By the Death of Mrs. Margaret J. Caille.

DETROIT, Aug. 10.—Police are investigating the mysterious death of Mrs. Margaret J. Caille, 74 Horton avenue, former wife of Arthur J. Caille, vice president of the Caille Brothers company, marine motors manufacturers, whose body was recovered from the Detroit river near Wyandotte yesterday afternoon. The body was identified as his wife by Mr. Caille and his son this morning at the county morgue. The couple have been separated two years.

There were no marks of violence on the body and she wore several valuable rings and other jewelry.

The dead woman is reported to have left her home Sunday afternoon in an automobile accompanied by a man and two other women and had not been seen by any acquaintances since.

A post-mortem examination this morning revealed slight traces of alcohol in Mrs. Caille's stomach and the heart showed slight apoplectic symptoms. Police are working on the theory that the woman was murdered by poison and her body thrown into the river several hours before it was discovered, while physicians believe

value if commerce was flowing between Russia and Germany.

Russian cavalry is approaching Warsaw along the Warsaw-Danzig railway with the Russian infantry 12 miles in the rear, said Warsaw advices to the foreign office telling of the present military situation.

LONDON, August 10.—Great Britain has decided to "mark time" pending the outcome of the negotiations between Polish and Russian envoys which are scheduled to open at Minsk tomorrow. The Russo-Polish plenipotentiaries, according to reports from Warsaw, will discuss both armistice terms and the preliminaries to peace.

Interest today centered upon the statement in the house of commons

the results of the Hythe conference. It was learned from a source close to Downing street that the premier would ask commons to suspend judgment on the Russo-Polish situation until the outcome of the Minsk meeting is known.

British officials united in expressing the belief that a solution of the troubles of the Polish question is nearer at hand than it was a week ago, despite the fact that the Russian red army is still advancing on Warsaw. Unconfirmed reports were received that the Russians have closed the Warsaw-Danzig corridor, virtually isolating the Polish capital, but they have not been confirmed.

England and France are prepared to renew the blockade of Russia, making it more drastic than it has been at any previous time, but no decision steps will be taken in this direction until after the premier has taken the country into his confidence and the Russians and Poles have had an opportunity to adjust their dispute at Minsk.

The Polish envoys crossed the Russian lines late Monday. According to information from an authentic source, the armistice terms will be based upon the complete independence of Poland and non-interference in Polish internal affairs by Moscow. The Polish delegates go to Minsk under absolute instructions that the soviet government of Russia must not attempt to dictate the future form of Polish government.

The conditions further include immediate partial disarmament. The Russians seek amnesty for political prisoners and will insist upon free transit facilities to Germany and commercial intercourse with Poland.

The Russians are said to be willing to recognize the Polish frontier drawn in the treaty of Versailles and to go even farther in extending the Polish border in the region of Scholm and Bielsostok.

Moscow is reported to be ready to reduce the Russian army when Polish demobilization takes place, withdraw

## RECOVER RAIL CAR PLUNDER

Loot Taken from Chester is Found At Brown's Island.

Goods, reported to have been stolen from railroad cars in Chester, W. Va., in recent weeks, were recovered in the underbrush at the head of Brown's Island, near Toronto, yesterday afternoon by Marshal Paisley and Officer Murray of the Toronto police force.

The following articles were found: One large ham, two sides of bacon, 50 pounds sugar, two bed quilts, 25 cans apple butter, 17 cans milk, 11 cans pickles, one gross canvas gloves, four pairs overalls, three bolts of dry goods, one-half cheese, supporters, 25 pairs, 50 pounds coffee, two canvas covers, 12 bales fancy work cotton, and numerous notions and dry goods.

The "tip" that the goods were secreted at Brown's Island was received yesterday by the Toronto officials. In a large motor boat, the police conveyed the "haul" to the Toronto police headquarters. J. A. Meeks, of Toronto, discovered the stolen goods while drifting riding in the Ohio river. Meeks had landed on the island and accidentally stumbled across the cache. The loot has been sent to Chester.

## MAN KILLED IN AUTO FACTORY

Body of Samuel D. Shipley is Brought Here for Burial.

The body of Samuel Douglass Shipley, aged 23 years, who was killed in an elevator shaft at an automobile works in East Liberty, Pittsburgh, early Saturday morning, will be brought to Wellsville this afternoon. The body will be taken to Spring Hill cemetery where brief funeral services will be held.

Shipley had been employed at the automobile works but a short time, according to relatives here. Saturday morning, it is said, Shipley stepped to the elevator shaft in the building that housed the auto works. The elevator was on the floor above him and Shipley, it is believed, manipulated the ropes that started the machinery. In the wrong direction, the elevator falling quickly and striking him on the head, the force of the blow, according to employees of the works, knocked Shipley 18 feet to the basement. The elevator, unchecked in its descent, it is said, fell on top of the man, badly crushing his body.

Deceased was the son of Mr. and Mrs. Samuel Shipley, former residents of Wellsville. His mother, prior to her marriage, was Miss Mollie Douglass. The family moved to Pittsburgh 26 years ago. In addition to his parents, three brothers, in Pittsburgh, and an uncle, George Douglass, this city, survive him.

## CLOSE DEALS FOR COAL LAND

Transfers Prompted By the Increase in Freight Rates.

Several important coal deals are features of the coal situation in this district, coming prior to the announcement, it is said, that the price of coal will advance as the result of the increase in freight rates by the Interstate Commerce Commission.

Local industries, will likely attempt to obtain fuel from the small mines in the rural territory in order to sustain operations until freight shipments can be facilitated. The McLain Fire Brick company is mining coal from a new vein unearthed in a shaft driven near the Chapman works.

The Youghiogheny and Ohio Coal Company, has purchased the Glens Run Coal Company, with two mines and 800 acres of coal, at Rush Run, Jefferson County, and 3,000 acres of coal in Belmont County. As the Youghiogheny and Ohio company, with 21 mines in Eastern Ohio, Western Pennsylvania and West Virginia, is a leader in development of the Eastern Ohio field, it is believed that mining of the Belmont County coal, now untapped, is contemplated in the purchase.

The aVley Camp Coal Company, headed by J. A. Paisley and having mines in Western Pennsylvania and West Virginia, recently purchased the

Oco mine and town of Oco, near Banook. It is anticipated that operations will be extended say officials of the aVley Camp company. The Oco mine was opened during the war to supply fuel to Ohio Match and Ohio Injector companies. Wadsworth and the Ohio Boxboard and Ohio Salt companies. Paisley has just incorporated companies to build railroads to coal he has acquired in Monongalia County, West Virginia. The Purslove-Maher Coal Co., with a dozen mines, have been purchased by T. K. Maher of Cleveland and the name of the company changed to the Maher Collieries Company.

Car supply continues poor to mines not having railroad contracts. Following a hearing by a State utilities commission this week of charges that the Sauters Coal Company's two mines near Martins Ferry were being

discriminated against in the matter of car supply by railroads because the coal company is selling fuel below the price charged by other companies, the situation became more serious. The day after the hearing only one car was allotted for the two mines. It was shown that the company's allotment had been decreased last month. Miners filed a protest.

### A BOON FOR STREET AND ROAD IMPROVEMENTS

Columbiana county's share of the first apportionment of fees paid for automobile licenses is \$19,935.47, check for which has been received by County Auditor C. E. Hamilton. Of this sum, \$4,718.77 remains in the county treasury, while the remainder will be distributed according to the number of licenses issued to East Liverpool, East Palestine, Wellsville, Columbiana, Hanover, Leetonia, Lisbon, New Waterford, Rogers, Salem, Salineville and Washingtonville. Payment of shares to the respective municipalities and villages will be made with the August tax settlement.

Apportionment of this fund should prove a boon to street and road improvements in several of the county's communities, for the law provides that the entire fund must be expended in maintaining the public highways. Unlike other funds, the automobile tax cannot be transferred to funds expended for other municipal or village needs.

East Liverpool's share of the tax on the basis of the first settlement made by Secretary of State Harvey C. Smith is \$6,197.89. Receipt of check for this sum should pave the way for many needed repairs to city streets. Undoubtedly it will result in the elimination of ruts, which abound in many streets in the downtown district, while a like condition is reported on thoroughfares in residential sections. City officials have been handicapped in making these repairs owing to shortage of funds. The automobile tax, however, relieves the predicament to some extent.

And while \$6,197.89 would soon be liquidated in any extensive street improvement, it should be sufficient to meet the cost of putting many streets in East Liverpool in better condition.

### TWO PENNIES FROM ONE

Circumstances today make it possible to improve upon the old maxim, for a penny saved may be two pennies earned if it is put into long-term bonds at prevailing prices.

A folder sent out by a company of investment bankers explains that bonds are the only things which the "cheap" money of today will buy more of than the same amount of money bought in 1914. Just before the war the dollar would buy 100 cents' worth of commodities, but it will purchase 121 cents' worth of bonds.

Of course, the public cannot go without necessities simply because the dollar purchases such a comparatively small amount of them. But when it comes to luxuries, the figures should point the way to a little wise restraint.

Put into simple terms, conditions are such that \$820 spent for non-essentials will buy about as much as \$369 would buy before the war. Put into long term bonds at the average prevailing price of 20 active issues, the \$820 will buy bonds worth \$1,120. As both bonds and goods approach normal prices, the \$820 worth of bonds will become exchangeable for \$1,120 worth of goods.

This certainly should inspire the thoughtful earner to forego a few of the luxuries he was about to indulge in simply because his loose funds are burning his pockets. There is never any gain in stinginess which does without the aids to health, comfort and progress. But there is a point in drawing a careful line between those expenditures which really accomplish such good and the foolish buying of things which gratify a temporary fad or whim. Now is the time for some of this wise saving and wiser spending, and later on the much-coveted luxuries will be more readily obtainable.

### ENGINEERS AND ROADS

The engineering societies of two cities are proposing to study the failure of a stretch of pavement between them. A joint committee from the two societies has been appointed to investigate and report conditions from the engineering standpoint. These engineers are going to find out, if possible, why the paving which was expected to give good service for many years should so soon have disintegrated into a bumpy mess. This looks like a constructive undertaking.

The principles of road-building have been known for many thousands of years. The Roman roads still hold their pre-eminence. But even Caesar did not anticipate the combination of enormous loads proceeding at great speed which our modern roads are forced to bear. Building roads for the heavy-laden motor truck presents entirely new engineering problems. Merely patching up the old roads in the cheapest possible way will not do. Merely building new roads in the manner of twenty years ago will not do. New methods must accompany the new burdens.

The serious study of such problems by engineering societies ought to be productive of some light on the best methods to pursue under given conditions.

### WOMEN IN COMMERCE

"A meeting of the Women's Association of Commerce of America"—what would the men and women of a former generation have said if they had heard such a thing? How many people today realize the place which women hold in business and in industry? Yet here it is, the Women's Association of Commerce, assembling for its sixth annual convention, planning a trade tour to be taken in September or October, and a national survey of Chambers of Commerce to find the standing of the women of the various cities in these bodies, and to obtain an equal voice for them with that of the men in the business of the country.

A prize is to be offered to the woman who accomplishes most in business next year, and this means not just in money handled or in goods sold, but in general business advancement. It will be interesting to note who earns this prize, and what she has done to earn it.

The association and its aims and objects are an interesting commentary on the business woman of today, on the earnestness of her purpose and the sanity of her attitude, and the courage with which she is waging her fight for recognition in the business world.

Curiosity made her a gas expert, says a woman. Not the first time this has happened. Hers happens to be natural gas, however, and not merely neighborly hot air.

## NEW YORK LETTER

By O. O. McIntyre.

NEW YORK, August 10. — A page from the diary of a modern Samuel Pepys: Up betimes, the wind high and a strange glow over the city. Came Miss H. Underhill, the scrivener, from Saranac fully restored to health and a happy soul indeed. This day I set out to clean out the clothes press and found my wedding suit which I donned and went before my wife, poor wretch, and we laughed all the morning.

Through the town afoot and to P. Ziegfeld's, where came Teddie Gerard, newly here from London, and a bright lady, well spoke. And there were some mechanical horses there and E. Royce came and we had a race, I lost and hurting my back and in great pain which I tried not to show. I am resolved to quit foolishness.

To lunch with Hickman, the band man, and we ate three blackberry tarts each and drank many beakers of cold milk and M. Leuschner, the Hippodrome man, came and talked long of the new show at his playhouse and how they have all learned to love the elephants with a strange devotion.

In the evening read "Harriet and the Piper," Mistress Kathleen Norris' new book which she hath sent me and find it a mighty brave tale. Then with my dog and she-cozzens for a walk and to the apothecary where I paid nobly for feed drinks. And so home and to bed.

A group of the lads in highly slashed coats, wrist watches and pomaded locks stood at their usual post in front of the Palace theatre the other afternoon about 3 o'clock. They had just breakfasted and were buoyant. Each seems to have squirrel teeth and incurable sense and they are a distinct type, indigenous to Broadway only.

One stood off from his fellows to give the passers-by a better view. He had all his scenery aboard. Checked trousers, black coat, yellow vest, purple shirt, carfaw tie, plaid spats, mountainous red shoes and a trick derby, jammed down over his ears. A breezy westerner stood across where the autos are parked watching him. He used suspenders and his coat was hung over his arm and he wore the wide felt hat. Finally he stepped over and walked around the young man. Then he tapped him on the shoulder.

"Son," he said, "I have been looking for a good laugh since I landed in town a week ago. You've given it to me." And he shook hands and walked away.

I passed the furnished rooming house on Fifty-sixth street yesterday where Dr. H. E. Campbell, for years a prosperous Pittsburgh physician, died in poverty. He was a dishwasher at Shanley's. His brace of fine St. Bernard dogs proved his chief interest. What a story Wilkie Collins might have written of this incident—which the city read about only for a day. The doctor, a fine gentleman, became just an odd shaped chip tossed to sight for an instant upon the surface of the rushing stream of life in New York.

Jack Dempsey is training in the vacant lot belonging to the Y. M. C. A. on West Fifty-seventh street. Windows of all the houses and buildings surrounding the block are crowded with faces from 3 o'clock when Dempsey arrives until 5 when he leaves. And yet some New Yorkers are curiously unaltered to what is going on about them. The man in the drug store directly across from the entrance asked me, following a small purchase, what was going on across the street.

Chamberlain's Colic and Diarrhoea Remedy.

Every family should keep this medicine at hand during the hot weather of summer. It is a most reliable remedy to be used before the summer is over and when that time comes it is worth many times its cost. It has no superior for the purpose for which it is intended. Buy it now.

## I SUFFERED THREE YEARS

Finally was Restored to Health by Lydia E. Pinkham's Vegetable Compound.

Lowell, Mass.—"I was all run down and had an awful pain in my right side, was persistently constipated and had very dizzy spells. I suffered for three years and was perfectly miserable until a friend was telling me to try Lydia E. Pinkham's Vegetable Compound and I found it a wonderful medicine. I can now do twice as much work and I recommend the Vegetable Compound to other women. You can use these facts as a testimonial."—Mrs. M. TRAIL BESSEY, 46 Chestnut St., Lowell, Mass.

Why women will continue to suffer so long is more than we can understand when they can find health in Lydia E. Pinkham's Vegetable Compound!

For forty years it has been the standard remedy for female ills, and has restored the health of thousands of women who have been troubled with such ailments as displacements, inflammation, ulceration, irregularities, etc.

If you want special advice write to Lydia E. Pinkham Medicine Co. (confidential), Lynn, Mass. Your letter will be opened, read and answered by woman and held in strict confidence.

## What I would do for MY TEETH

Said a prominent dentist:—I would clean my teeth twice every 24 hours with a fairly stiff tooth brush that would not shed its bristles and with the aid of an antiseptic tooth paste which has proven its value. We can sell you the best of tooth brushes—small one or large one—to fit any mouth. We can sell you the most ANTISEPTIC TOOTH PASTE that we have ever seen and the combination we are sure will do all the good for which it is recommended.

## Become a Private Secretary

The position of Private Secretary is different. The young man or woman in this position commands the respect of the office assistants and outside of business is on a social plane equal to that of the superior executives.

The work is pleasant, beneficial and extremely varied and interesting.

In addition to rapid financial gain the Private Secretary has chances for development in the handling of business and social affairs that are not found in other professions.

The Private Secretary associates with the brightest minds of the organization, becomes acquainted with the most influential people and learns the innermost working of important affairs.

To fit you for this position we will give you special training in our Private Secretary Course. This

course is distinctly our own and is duplicated in no other institution.

We will give you the education necessary to talk convincingly and intelligently with people. We will develop your personality, which the Private Secretary must have. We will train you in the business subjects necessary in the office and in the duties of the Secretary.

This course offers the High School or College student an unusual chance to get into a really high class position.

It also offers young men and women now employed an opportunity to rise above their present positions.

There is a greater demand for our graduates than we can fill, as we accept only those who in refinement, age and personality will conform to our high standards and who in our judgment are adapted to a position of this kind.

THESE COURSES MAY BE TAKEN IN OUR REGULAR CLASSES OR AT HOME BY CORRESPONDENCE

## CORD TIRE TEAM TO PLAY HERE TUESDAY

Joe Dickey's Newell Hy-Kys will oppose the Chester Cord Tire aggregation on the local grounds at 6 o'clock Tuesday evening. Parsons, who made his initial appearance with the locals last Saturday when the Wellsville P.H.C., were defeated, 4 to 3, after an 11-inning game, will be sent to the mound, while Vincent will be on the receiving end.

With this new battery, the management of the Newell club believes that it will have a team that will be equal to any in the Ohio Valley. Parsons is a former resident of Newell.

In Saturday's game with the Wellsville nine, Parsons did not allow a hit and fanned out 18 of the opposing batsmen in the 11 innings.

## SCHOOLS WILL REOPEN IN NEWELL SEPT. 7

School bells will ring in Newell on Tuesday, September 7, for the beginning of the fall term, according to an announcement made Tuesday by Superintendent of Schools A. D. Osborn.

Final arrangements for the re-opening of the schools will be made at a meeting of the school board to be held Tuesday afternoon. The faculty is almost complete, there being one vacancy in the high school and two, three places in the country schools for to fill.

Miss Alta Fowler of Chester, instructor of science in the local high school will not return here. The Shepherds Valley and Brooklyn school teachers also are to be named. Prof. Osborn announced that the final appointments will not be made until about two or three weeks before the date of the opening.

of from 27 to 47 cents per 1,000 cubic feet to consumers who use 40,000 cubic feet or less per month. This rate is for all consumers except churches and charitable institutions, the new rate for which is 42 cents per 1,000 cubic feet instead of 32 cents per 1,000 cubic feet. A discount of two cents for each 1,000 feet is allowed if payment is made before the tenth of the month.

Changes made in the company rules and regulations state that it is the duty of every consumer to use gas in an efficient manner, and in efficient appliances. Gas should not be burned in an appliance designed for coal or other fuel and not efficient for burning gas, nor in fireplaces with open chimney flues, which are wasteful or heat. Cooking ranges with solid top or cooking or laundry stoves with burners more than 1 1/2 inches below

the bottom of the cooking utensil, or wasteful or improperly adjusted or

clogged mixers should not be used, nor should any water heater or other

## "Just One" Gets Results Every Time

Only Laxatives That Keep on Giving Satisfaction and "Never Wear Out"

The same identical result from the same dose, now or after years of use, is what you get from "Just One" that no other laxative can offer.

"Just one" cannot wear out or get your system accustomed to it, as other laxatives always do. You don't change from "Just One" to something else, because are already changing with every dose of "Just One" you take. Twenty tablets, alike in appearance, but each a different laxative and acting upon different organs or sets of organs, in each box of "Just One." You cannot take the same kind twice from the same box, so you cannot get your system accustomed to and unresponsive to these tablets. That's why "Just One" never wears out.

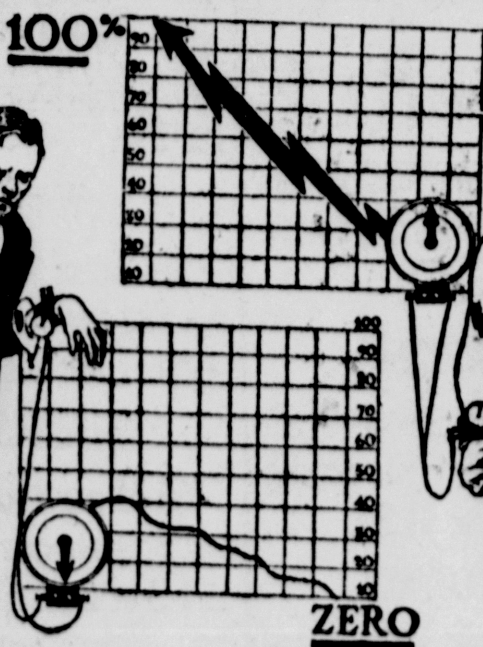

Keeps your whole system active and uncongested instead of pounding upon one organ all the time. This is the ideal, the modern, the scientific way. You'll want "Just One" of course. Any drugstore anywhere can get "Just One" for you or we will send it post-paid upon receipt of 25c per box. Ferfritone Chemical Co., Council Bluffs, Ia.

# YOU ARE ONLY HALF ALIVE OR WOULD YOU REGISTER 100% ON THIS CHART OF HEALTH?

If there existed a device which would register the quantity of vitamins in the human system, the above chart might well illustrate Dr. Rudolph's statement printed below. Science now knows that the body must receive plenty of life-giving vitamins to maintain a fullness of health, strength and energy. Read how to get vitamins in Vitamin.

## PHYSICIANS AT LAST FIND OUT WHAT KEEPS SOME MEN FILLED WITH STRENGTH AND ENERGY WHILE OTHERS BECOME WEAK AND RUN-DOWN.

Without Life-Giving Vitamins There Can Be No Fullness Of Health and Vitality—How To Tell If Your Body Needs This Vital Substance Of Such Amazing Power.

New York (Special).—"If I were asked 'What are Vitamins?' I should say 'They are life—they give energy—they are power—they give strength and beauty to your body and vigor to your mind.' So rapid, so pronounced and so amazing are the results produced by the concentrated vitamins known as Vitamin that no matter what anyone says I do not believe there is anything whatsoever to which this discovery can be compared."

Such is the statement made in a recent discourse by Former Health Commissioner John J. Rudolph, M. D., late of New York Hospital Staff and a Graduate of the University of Baltimore. Continuing Dr. Rudolph said: "When you see a man contented to merely 'hold a job'—a man who has no other interest than remaining in his own rut, who is perfectly satisfied with what comes in his pay envelope every week and is willing to go through life without ever amounting to much you will always find that his lack of interest and enthusiasm is caused by a lowered vitality and a weakened physical condition. If either has a poor appetite or else he is not getting the proper nourishment out of what he eats to

build health and strength. Nature puts in certain raw foods a vital life-giving substance which scientists have given the name vitamins, but owing to modern methods of preparation and cooking this substance is almost entirely lost from many everyday foods, like white bread, boiled or pasteurized milk, polished rice, potatoes, canned goods and others. Therefore the man who is weakened, nervous and run-down must get these vitamins in some other way such as by taking the concentrated form called Vitamin, if he expects to make himself a keen, red-blooded fellow with the strength, energy, ambition and courage to succeed.

By keeping himself fit with Vitamin he at once becomes more powerful mentally, better able to use the talents and ability he possesses and his buoyant health makes him as active and alert that he is always ready to reach out and grasp every opportunity which comes his way. Such a man can easily take the leadership and hold it—he has the vim and energy, the brain-power and the money too.

There are, in my opinion, thousands of men, who by taking a short course of Vitamin might readily build themselves up into a position of health, success and power instead of being nervous, irritable weaklings haunted by fear through the day and tormented by sleeplessness and depression at night. Without vitamins there is a continuous starvation process going on all through the system. As a result you become generally weakened and run-down and frequently develop all sorts of conditions

without ever even suspecting the real cause of your trouble.

You may be tired, nervous, depressed, worried, unable to digest your food or to sleep well at night—your skin may be mottled and your complexion sallow, pallid or lifeless, no matter what the symptoms may be there is a lack of strength, energy and vitality which must be overcome before you can enjoy perfect health. It is in such cases that I find Vitamin to be of such tremendous benefit by supplying exactly what is needed to help build up the health, strengthen the nerves, tone the tissues and clear the skin.

Not until you have taken Vitamin yourself and felt its effects can you form any idea of the vast difference it may make in your health, strength, mental vigor and physical appearance."

### SPECIAL GUARANTEE

If after using Vitamin you are not entirely satisfied with the results and are not convinced that it has been worth to you far more than you paid for it, the trial will cost you absolutely nothing. You are to be the sole judge. Vitamin may now be obtained in this city from all leading druggists such as Bulger's Pharmacy, Charles T. Larkins, Herche's Drug Store, Carnahan's Pharmacy, Hodson's Drug Store, Gamble's Drug Store, C. G. Anderson, Holloway's Drug Store, T. C. Flick.

appliance or furnace be used that is not reasonably efficient.

### Newell Personal

Miss Mary Lavelle of Pittsburgh, has returned home after visiting her cousin, Mrs. George K. Stewart of Grant street.

Miss Florence Moss, county Red Cross secretary is in Weirton today on business.

Miss Zana Hamilton returned home Monday after a month's visit in Toledo and Detroit.

Miss Nellie Foltz is confined to her home on Harrison street, on account of illness.

Ernest Pittenger of Canton has concluded a brief visit with his parents here.

### About Digestion.

Digestion begins in the mouth. The food should be thoroughly masticated and insalivated before it is swallowed. When this is habitually neglected stomach trouble is almost sure to follow. If you now have indigestion eat no beef or veal and sparingly of other meats, masticate your food thoroughly and you may recover without taking any medicine. If your bowels are constipated take Chamberlain's Tablets.

They not only cause a gentle movement of the bowels, but aid digestion and strengthen the stomach.

## PESKY BED BUGS

(Pesky Bed Bugs Quietly) P. D. Q. is a new chemical that puts the ever-lasting to the Pesky bed bugs, roaches, fleas, ants and scorpions—impossible for the pesky pests to exist where P. D. Q. is used.

Recommendations of Hotels, Hospitals, Railroad Companies and other public institutions are a guarantee to the public that the safest, quickest and most economical way of ridding the pesky insects is by the use of P. D. Q. as this chemical kills the eggs as well as the live ones, and will not injure the clothing.

A 50c package makes a full quart, enough to kill a million bed bugs, roaches, fleas or scorpions—and also contains a paid-up to get the eggs nests in the bed to get-at-places, and save lives.

Special Hospital also \$1.50 makes five gallons—contains three dozens—supplied at price, either size, by the Owl Chemical Co., Terre Haute, Ind.—never peddled.

Sold by T. C. Flick, J. D. Holloway, druggists.

## Examination of School Children's Eyes

Dr. Wood of Columbia University is authority for the statement that there are 16,000,000 school children in America whose efficiency is either actually or potentially reduced by defects of the eyes, and this is out of a total number of 22,000,000 children in the schools of this country.

I examine the eyes of school children FREE, if accompanied by parents or guardian, from August 15th to September 15th. Are your children's eyes ready for school this fall? Everything in my examination is scientific, modern and honest; if glasses are not needed, I will very gladly say so.

### CORD TIRES AND "OLD TIMERS" ARRANGE SERIES

To determine the baseball supremacy of Chester, a series of three games has been arranged between the local Cord Tire team and the "Old Timers," selected from former well known baseball players.

The series is for a purse of \$200 and gate receipts of three games which are expected to total \$200. The first game of this series will be played at Rock Springs park Friday evening. The dates for the other two contests have not been definitely decided.

Charles Smith Jr., manager of the "Old Timers," Tuesday announced that the following lineup would probably be used in the initial clash of the series:

Monty Wilson, catcher; "Punk" Riley, pitcher; Howard Cochran, third base; "Chuck" Smith, shortstop; Ed Davis, second base; Pollock, first base; Fred Wertheimer, left field; Parsons, middle field, and "Hap" Jackson, right field.

### MRS. MARGARET TODD, AGED 82, IS DEAD

Mrs. Margaret E. Todd, aged 82 died at her home in Louisiana avenue, Chester, at 3 o'clock Monday afternoon following an illness of several months.

The deceased was born in Service, Pa. She was a member of the First United Presbyterian church of Chester. She is survived by three sons and one daughter, as follows: W. C. Todd of Chester; John A. Todd, of Denver, Colo.; and Harry B. Todd, of Avalon, Pa., and one daughter, Miss Lulu Todd also of Chester. One brother, also survives.

Funeral services will be conducted at the late home at 1 o'clock Wednesday afternoon, Rev. French, pastor of the United Presbyterian church of Service, Pa., and Rev. Thomas Newcombe, pastor of the First United Presbyterian church of Chester, officiating. The body will be taken to Service for burial.

### NAME DELEGATES TO DEMOCRATIC MEET

J. N. Finley, C. F. Allison, Sr., and Mayor James L. Mayhew of Chester and Tim Robinson, of Newell, Monday evening were named delegates to the Democratic state convention to be held in Wheeling next Saturday. The selection of these delegates was made at a mass meeting of Grant district Democrats held in the Chester city hall.

Lawrence Baxter acted as chairman of the meeting. As more than 400 votes were cast for Gov. John J. Cornwell for governor in 1918, this district was entitled to name four delegates to the state meeting.

Alternates to the state convention include Claire Finley, Charles F. Allison, Jr., and Thomas Kinney, Sr., all of Chester and E. M. Ellis, of Newell.

### AUTO-TRAIN CRASH NARROWLY AVERTED

While returning to their home here from Pittsburgh, J. E. Allen and George A. Canlock had narrow escapes from death, it developed Tuesday.

At the grade crossing over the C. and P. railroad tracks near the Merrill dam, west of Beaver, Mr. Allen, who was driving the machine, failed to notice the approach of a passenger train, because of an obstruction and not until the car was almost on the tracks was the train discovered. He brought the machine to a standstill within a short distance and was so close to the tracks that the side of the train scraped the front fenders of the automobile.

### INGRAM DELEGATE TO WHEELING CONVENTION

Prosecuting Attorney W. W. Ingram left early Tuesday morning for Wheeling, where he will attend the district Republican judicial convention being held there today. Mr. Ingram is the only delegate from the upper end of Hancock county, although Attorney R. M. Brown of New Cumberland is representing the lower district of the county.

The convention will endorse the candidacy of Judge J. B. Sommerville for the judicial bench, it was learned today.

A large delegation of Chester Republicans will attend the Republican state convention to be held in Wheeling on Thursday.

Big Apple Crop.

Estimate made this week of the apple-shipping season in the Cumberland, Martinsburg, Hagerstown, Winchester section, embracing the Apple Pie Ridge section, the Potomac Valley land and the Cumberland chert soil land, indicate there will be shipped out of this section during the 1920 season not fewer than 1,500,000 barrels of apples. Frederick county, Va., leads with 500,000 barrels and Berkeley county is second with 400,000 barrels.

### THOMAS FOWLER, 38, DIED HERE TODAY

Thomas Fowler, aged 38, died at his home in Indiana avenue, Chester, at 3 o'clock Tuesday morning following a long illness. The deceased was a butcher by trade.

Last January Mr. Fowler went to Colorado in hopes of benefiting his health, returning to his home here in March. He has been bedfast since then.

The deceased is survived by his wife and two children, Ina, aged 16, and Allen Thomas, aged 14; one brother, Charles Thomas of East Liverpool, and three sisters also survive. Mrs. Robert Finley of Chester, Mrs. Mary Gregory of Wellsville and Mrs. McGilivray of St. Marys, O. He was a member of the First Christian church of Steubenville and also identified with the Knights of Pythias and I. O. O. F. lodges.

### CHESTER MERCHANTS ABANDON OUTING PLAN

The Merchants The Chester merchants at a meeting held last evening abandoned plans for an outing this year. Lack of interest on the proposition except for a half dozen or so, was responsible for the action, it is said.

A committee of the merchants will meet with council at its next regular meeting to talk over the matter of taking care of the blood-hounds, recently purchased by business men of the city. The cost of the dogs was paid by public subscription.

At the present time, the canines are being cared for by H. G. Mercer, proprietor of the Chester Cash Hardware.

### ALLEGED DESERTER'S FRIEND SENT HOME

Cora Miller, the 16-year-old girl, who was in company with Marcus Nach, the alleged deserter from the U. S. S. Florida, who was arrested at Weirton on Friday night, was sent to her home in Midway, Pa., Monday. Through the efforts of Rev. H. M. Mable and Lieut. L. L. White, of the Weirton police force, a sufficient sum of money was raised to buy a ticket to her home. She seemed very anxious to return to her mother and was very thankful for the kindness shown her by the people of Weirton. Nach is still held in jail at Weirton awaiting word from the naval authorities.

### RUSH WORK ON PORCELAIN PLANT

Gamble & Bryan, East Liverpool contractors, today are finishing the last kiln at the plant of the Davidson Porcelain company in lower Chester. Carpenters are at work completing the interior of the plant. Some of the machinery which will be used to operate the plant has already arrived here, the remainder being expected shortly.

If nothing unexpected looms up to halt the work, the plant will be ready for operation by the middle part of September. The railroad switch which will connect the factory with the Pan-handle tracks has not yet been laid.

## Here's A CLEAN-CUT BUSINESS PROPOSITION!

Have You \$25-\$50-\$100 to Invest?--Then READ

Have YOU ever made any money in the oil business? Have you ever had the good fortune to be a shareholder in some well that COMES IN A GUSHER? For, whether you have ever owned stock in a well or not, it is a FACT that someone does own stock in EVERY WELL THAT COMES IN.

You cannot pick a winner every time! Even John D. Rockefeller couldn't do that! But, some wells are BOUND to come in. The thing is to pick the propositions that offer the best chances. HERE'S ONE. The Schwerin Oil and Gas Lease holds a lease on 42 acres in one of the long-proven oil regions in America (on the Mount Nebo syncline, Ohio Township, Allegheny County, Pa.)

## We Propose To Drill 5 Wells

This Lease is in the Heart of the Proven Oil Region

THINK!! What a FIFTY (50) barrels well will mean at the present price of Pennsylvania crude oil. It means an income of approximately \$150,000 a year. Five such wells would mean an annual income of Three-Quarters of a MILLION DOLLARS.

## CITY EMPLOYEES ARE GRANTED WAGE INCREASE

**Council Enacts Ordinance  
Boosting Pay of Police,  
Firemen and Others.**

### ONE REQUEST IS FILED

**Consider Petition to Establish  
Grade on Orchard  
Grove Ave.**

Increased wages for city employees, street paving projects and proposed dedication of city property for use of private concerns were the principal matters confronting city council Monday night.

An ordinance altering the appropriation ordinance so as to take care of the recent flat \$15 increase granted police and firemen was passed under suspension of rules. With the approval of Service Director E. J. Smith, an ordinance giving firemen at the city water works plant \$4.50 per day, oilers \$4; filtermen \$3.50; firemen at garbage plant \$4.50 and helpers at garbage plant \$3.75 was passed. Because they could see no channel from which to derive the necessary revenue, the \$15 per month increase for the city hall janitor was deferred until the first of the year.

Request of the health board for sufficient funds to increase the sanitary officer to \$135 per month; assistant sanitary officer, \$110 monthly; health commissioner, \$70, and clerk \$20, was placed on file.

In answer to a petition from property owners on Orchard Grove avenue, an ordinance establishing the grade on Orchard Grove avenue between St. Clair avenue and Smithfield street was passed. Request that the sidewalk be widened from 10 to 11 feet will be granted in an ordinance to be presented at the next meeting.

### QUIT TOBACCO

So Easy to Drop Cigarette, Cigar, or Chewing Habit.

No-To-Bac has helped thousands to break the costly, nerve-shattering tobacco habit. Whenever you have a longing for a smoke or chew, just place a harmless No-To-Bac tablet in your mouth instead. All desire stops. Shortly the habit is completely broken, and you are better off mentally, physically, financially. It's so easy, so simple. Get a box of No-To-Bac and if it doesn't release you from all craving for tobacco in any form, your druggist will refund your money without question. No-To-Bac is made by the owners of Cascarets; therefore is thoroughly reliable.

A committee composed of Councilmen George Goppert, Claude McCoy and Service Director E. J. Smith was appointed to investigate the request of the Buckeye Power company for permission to increase commercial rates for lighting.

Because the bids were too high and in view of the fact that property above Grace alley could not stand the assessment, council Monday night agreed to proceed with the improvement of Sophia street from Minerva street to Grace alley only.

Following the presentation of the matter by Attorney R. G. Thompson and E. B. Bradshaw, city council instructed City Engineer J. N. George to prepare a plat of the proposed extension of Thompson avenue to Vine street across the property of Mr. Bradshaw. Mr. Bradshaw offers to sell sufficient land to construct a 50-foot street or will dispose property at the value fixed on the tax duplicate.

City council will investigate the proposed use of lower Washington street by the Potters' Supply company as coal and raw materials storage and the proposed use of a strip of land on the river front near the garage furnace for a coal yard and unloading pier before taking any definite action on the two projects.

### RECEIVER FOR LOCAL POTTERY DISCHARGED

With the filing of a bond sufficient to cover the total indebtedness of the Cartwright Brothers' Pottery company, W. T. Tebbutt, this city receiver for the bankrupt concern, has been relieved of duty. It was announced Tuesday.

The bond was signed by eight East

Liverpool men and was filed with Common Pleas Judge J. G. Moore at Lisbon Monday. The official order of the court asking Receiver Tebbutt to "file his final account by Sept. 1, 1920," was given to Attorney R. G. Thompson, counsel for the creditors, Monday afternoon.

The Cartwright Brothers' Pottery company went into the hands of a receiver in February, 1918. W. T. Tebbutt was appointed receiver and C. F. Goodwin, Dewitt Irwin and T. B. Anderson, appraisers.

### Careless Shampooing Spoils the Hair

Soap should be used very carefully, if you want to keep your hair looking its best. Most soaps and prepared shampoos contain too much alkali. This dries the scalp, makes the hair brittle, and ruins it.

The best thing for steady use is Multisided coconut oil shampoo (which is pure and greaseless), and is better than anything else you can use.

One or two teaspoonfuls will cleanse the hair and scalp thoroughly. Simply moisten the hair with water and rub it in. It makes an abundance of rich, creamy lather, which rinses out easily, removing every particle of dust, dirt, dandruff and excessive oil. The hair dries quickly and evenly, and it leaves the scalp soft, and the hair fine and silky, bright, lustrous, fluffy and easy to manage.

You can get Multisided coconut oil shampoo at any pharmacy. It's very cheap, and a few ounces will supply every member of the family for months.

## REGULATIONS FOR CHINESE PLANTS

### Concluding Chapter of William Burgess' Observations of Pottery Industry in Orient—Gives Rules for Guidance of Shop Superintendents.

(Editor's note—This is the concluding chapter of the observations of William Burgess, First Vice President of the United States Pottery Association while in the Orient. The publication of the report in this newspaper has occasioned wide comment, and his text shows he has let no detail concerning the manufacturing of ceramics abroad escape his notice. His report has been the subject of favorable comment not only by members of the Pottery Association, but also lauded by the Ceramic Division of the Department of the Interior.)

By William Burgess.

In one district of China certain regulations have been provided for the guidance of pottery superintendents. They read:

"Art. 1.—When the ownership of the porcelain factories is restored to the government, it shall be called the 'Superintendent's Office'."

"Art. 2.—The Office shall be divided into two sections, the Porcelain Affairs Section and the Porcelain Industry Section; and they shall consist of the following staff:

1. One Manager for the Porcelain Industry Section.
2. One Manager for the Porcelain Affairs Section.
3. Two Clerks for Porcelain Affairs Section.
4. Two Technical Experts for Porcelain Industry Section.
5. Two Secretaries.
6. Eight Experts.

"The above secretaries, etc., shall be responsible for various affairs fixed according to circumstances. As at present no official factories have been established; there is no need for so many experts. However, as it has been a difficult matter to obtain the best skilled experts, measures should be adopted to train young and clever men for the work. Thus when the work of the factories is extended, competent men will be ready for the same. The government will thus derive great benefit at the least expense."

"Art. 3.—The Porcelain Affairs Section shall manage all the documents, accounts and miscellaneous affairs. The Porcelain Industry Section shall look after the manufacturing, etc."

"Art. 4.—The Superintendent shall have full authority to control and direct the officers of the office in the management of affairs. The Sectional Managers, shall, under the direction of the Superintendent, supervise and direct the officers, experts and clerks of their respective sections, and shall hold the responsibility of the section. Under the direction of the respective sectional managers, all the clerks shall attend to all the affairs assigned to them; the secretaries shall do the copying work and the keeping of documents; and the experts shall draw up plans and pictures for the porcelain wares."

"Art. 5.—In connection with rewards and punishments for the managers and the officers under them, the Superintendent shall from time to time investigate their respective merits, and demerits, and the merits and demerits of the secretaries and experts shall be investigated by the respective managers."

"Art. 6.—Salaries, mess allowance and other expenses in connection with making experiments, etc., shall be \$1,300 per month, as per enclosed list. For the present it seems that there is no need of an allowance for experiments as the work of manufacture has not yet been started; but it is really absolutely necessary because of the desire for the extension of the work of the office. The extraordinary extraordinary expenditure for the repairs of the office and the purchase of furniture is \$3,000."

"Art. 7.—These regulations are to be enforced temporarily for the present in the initial stage of the porcelain factories, and they shall come into force from the date of their promulgation. They are subject to alterations and changes."

"The Porcelain Ware Industry—According to a recent investigation for porcelain ware industry in this country is not making progress. The annual output of porcelain ware in Kiangsi is valued at only \$5,000,000 and the figures have been decreasing in recent years. Human turns out only \$200,000 worth of porcelain ware each year, while the wares imported from Japan amount to \$2,000,000 per year."

Since the going out of the old dynasty, the officials of the Republic

this branch of industry. On account of the present financial difficulties of the government and the disturbed condition of European nations, the project cannot be put in hand. After careful consideration, this Ministry has decided that the said Director should be instructed to proceed to Chingtechen to take over charge of all the official charge of all the official factories, and then proceed to make the necessary repairs.

All the moulds and porcelain samples stores in the various guilds and Yamen should be collected and preserved. All the laborers for these factories should be gathered together to start work so that they may practice their craft. With regard to the plans for the improvement of the industry, we must wait suitable opportunities. The said Director further proposes that the official factories be removed to Hsinze. But we think it advisable to wait until the porcelain industry has developed.

The President's reply: "The proposals in the Memorial are hereby approved."

The latest report to the Chinese government was concluded in the following words:

"Taking into consideration the facts above related, we may conclude that although the Porcelain Industry of Chingtechen is old and the total production is great, the raw materials and labor are abundant and the products are better than those elsewhere, yet the methods of management and manufacture are old and capital is limited. Modern machinery is not used and technique is not studied, and the shapes and appearances have not improved."

"The process of manufacture is very complex but simplification is not sought. Wood and charcoal used as fuels are expensive but coal is not generally adopted as a substitute; consequently the cost of production is high and in competing with foreign goods, difficulties are encountered. The sale of native goods is somewhat decreased due to the importation of foreign goods. If improvements are not immediately introduced, this industry will be reduced to insignificance and its long history of more than one thousand years will disappear with it."

"In order to improve the situation, the Government should pay special attention and encourage the porcelain and pottery industry of Chingtechen, decrease the exportation tax, improve the process of manufacture, institute reorganization, and assist in every way financially. With additional attention directed to research and technique, to the problem of how to use the fuel to the best advantage, to the adaptation of coal as fuel, to the methods of decorating their lithographs

A model factory requires a large amount of money for the improvement of the manufacture and a large number of persons should be appointed to proceed to foreign countries to study

This Warren, Ohio, Man Says That Nerv-Worth Does More Than Is Claimed For It.

"I have taken Nerv-Worth," said Mr. Godfrey, "and it has done me more good than any other preparation that I have ever used. It has done everything and more than claimed for it." This man's statement is short and to the point, but the few words spoken are conclusive proof of real results. Nerv-Worth is giving the same pleasing satisfaction wherever used, and it will do the same for you. Nerv-Worth overcomes stomach troubles, stops gas formation, neutralizes excess acids, aids the whole digestive system, whets the appetite, and tones the

### A Woman's Message to Women:

COSMOPOLIS, WASH.  
"Three years ago I was sick from a severe pelvic trouble for which I had no medicine, but was not relieved of my suffering, and was told nothing more could be done to improve my condition. My husband found your ad in the paper and ordered a sample, and upon receiving it, I immediately tried a full course of your Uplift Treatment, which I found so directed, and I am a well woman today. I certainly do recommend your treatment very highly for I positively know what it will do, and hope others will see as I do." MRS. C. A. ANSON.

BFD No. 1, BATAVIA, N. Y.  
"I am writing for your Uplift Treatment for my daughter, as I have used it myself and know what it will do. I was a terrible sufferer from female troubles, nervousness and weakness, and I had tried almost every remedy. Then I read your treatment, and at the end of a few months I was perfectly healed and have never been troubled since, so I can't praise your medicines enough. Do my name if it will help anyone else to get well, and I know it will if they use it rightly." MRS. H. S. PARKER.

Only a Woman Knows a Woman's Trials and Understands Her Need of Sympathy and Help. That is why hundreds of women gladly testify to the value of Mrs. Sumner's popular Uplift is relieving so much of the misery and suffering known only to womanhood. "Tiz" for Sore, Tired, Puffed-Up, Aching, Calloused Feet or Corns.

You can be happy-footed in a moment. Use "Tiz" and never suffer with tender, raw, burning, blistered, swollen, tired, smelly feet. "Tiz" and only "Tiz" takes the pain and soreness out of corns, callouses and bunions.

As soon as you put your feet in a "Tiz" bath, you just feel the happiness soaking in. How good your poor, old feet feel. They want to dance for joy. "Tiz" is grand. "Tiz" instantly draws out all the poisonous exudations which puff up your feet and cause sore, inflamed, aching, sweaty, smelly feet.

Get a box of "Tiz" at any drug store or department store. Get instant foot relief. Laugh at foot sufferers who complain. Because your feet are never, never going to bother you or make you limp any more.

### BEGIN PROBE INTO SLAVIN-McGRAW CASE

NEW YORK, August 10.—Searching investigation of the circumstances which resulted in serious injuries to John C. Slavin, veteran musical comedy actor, who is unconscious in a hospital here, was ordered yesterday afternoon by District Attorney Swann.

The condition of Mr. Slavin, who was found yesterday unconscious from a fractured skull and concussion of the

brain near the residence of John L. McGraw, manager of the New York National baseball club, was reported today slightly improved with an even chance for recovery.

Acting upon instructions from Mr. Swann, Assistant District Attorney Marro questioned detectives who have been working on the case, in an effort to learn whether Slavin received his injuries at the Lamb's club, which he had visited with McGraw and Winfield Leggett, a retired naval officer, or whether the injuries were sustained at a point near where he was found.

future developments are certainly hopeful. However, due to the lack of capital, the annual production is only a few thousand dollars and the income is not sufficient to meet expenditures. This is a great danger unless the Government offers assistance. At present, the importation of foreign goods is somewhat decreased. This is the best opportunity for those who advocate the development of the industry to pay special attention to this great subject."

### POTTERY—REGULATIONS

To give a little idea of the porcelain and pottery business of China, I add the following table:

Year	Makers	Male	Female	Exports	Imports
5th year Republic	148,731	384,372	8,791	10,234,932	10,234,932
1st year Republic	11,328	67,631	3,862	\$11,124,724	\$11,124,724
2nd year Republic	23,657	157,202	8,688	18,609,153	18,609,153
3rd year Republic	142,996	406,617	9,284	17,234,503	17,234,503
4th year Republic	141,607	509,155	38,891	13,120,743	13,120,743

First Year of Republic	\$2,900,833	\$1,223,657
Second Year of Republic	3,220,070	1,816,250
Third Year of Republic	2,907,568	1,520,474
Fourth Year of Republic	3,804,662	1,169,387
Fifth Year of Republic	4,319,221	1,451,273

At the present time, China does not appear to be a serious competitor of the American pottery industry, but when one looks into the latent possibilities, he realizes that conditions may change very seriously as some of the more modern Chinese are anxious to develop the resources of their own country and they consider the production of porcelain one of their natural resources.

I met with several of these gentlemen and I asked them about how many goods could be turned out for export provided the way was open. They deliberated for a few moments and then stated that they could guarantee delivery of \$5,000,000 worth of cups, saucers, plates and bowls annually with their present equipment and with modern appliances they could double that amount.

(The end.)

The house committee of the Lamb's last night issued a statement saying that McGraw precipitated an altercation in the club early Sunday morning when he mistook an actor for a man with whom he had "a difference."

## BIG PRIZE LIST WILL BE OFFERED

**Members of Fish and Game Association Will Compete for Over \$400 Worth of Awards.**

In a dozen or more back yards in the city and Wellsville where there are members of the East Liverpool branch of the Columbiana County Fish and Game association, can be heard daily, the singing of reels, the swish of the lines and the thud of the plug as it lands. In remote spots, 22 caliber rifles are peppering targets. All this is indicative of intense practice sessions by members of the local organization, seeking to bring to this city the larger portion of the prizes to be given at the second annual outing of the association to be held at the Salem Country club Wednesday, August 18.

There will be something doing all day, promise officials, beginning with the coon hunt in the morning at 9 o'clock. A. C. Baxter, chief game warden of the state, and his assistant, J. W. Struber, of Columbus, accompanied by Deputy Game Warden C. E. Hudson, of Alliance, and L. H. Myers, mayor of Akron, will attend the outing. It will be the first visit of Baxter and Struber to this county. Probate Judge Sam Crawford will assist in the ceremonies. About 4 o'clock Baxter and Struber, in machines, will be taken to various points along Beaver creek, a demonstration by members of the organization of what kind of fishing the county has.

The members of the Lady Macabees of Salem will serve the dinner. Several hundred guests are expected.

The program of events and prizes in each event are as follows:

## GOLFERS START AT INVERNESS

**Best Players in U. S. and England Are Entered.**

By ROBERT E. HARLOW.

TOLEDO, Aug. 10.—Two hundred and sixty-eight golfers, including all but a handful of the greatest players in the United States, and a strong representation from England, started play here today at the Inverness Golf club for the open golf championship of the United States.

In order to get the whole field over the green holes in the preliminary qualifying round between dawn and sunset it was necessary to send the first pair away at 7 o'clock. Starts were to be made after that at four-minute intervals until after 4 o'clock. The last pair off the first tee was not expected to reach the home green until after 8 p. m.

While the field is the largest that ever competed, critics here do not look for any upsets. Sixty-four golfers will qualify today and tomorrow for the championship proper, which will be contested Thursday and Friday over seventy-two holes. When the final round is reached it is probable the old favorites will be found fighting for the title.

The tournament has international interest, as Harry Vardon and Ted Ray, the English experts, are started. Vardon is paired with Bobby Jones and this pair carried the first day gallery, for the people were eager to see the veteran British master and the most brilliant young golfer in America in action.

The Inverness course was in fine condition for the tournament, many of the professionals declaring it to be the best championship course they had played over. It is 6,569 yards long. Par is 72.

Heavy showers during the night soaked the course. The sky cleared at dawn and the sun was shining when the first pair got away at seven o'clock.

Last night's rain made fairways and greens heavy, adding to the advantage obtained by a long straight drive. The greens held high pitch shots where they fell.

**Rain Halts Matches**

AKRON, Aug. 10.—Rain halted yesterday's matches in the national shoe shoe pitching tournament that is in progress here this week. A meeting of representatives of different cities is to be held Wednesday when a site will be selected for the next tournament.

The White Sox accumulated two victories and second place, the Senators suffering in the former, 3 to 2, and 5 to 4, and the Yanks in the latter, even though they won from Cleveland.

Bob Shawkey, with marvelous assistance from the justly famed Babe in a fielding way, stood the Indians on their heads and won for the Yanks, 6 to 3.

The Giants resumed their march toward first place with a sock at the otherwise fast traveling Pirates, whom they slapped, 9 to 0.

The Cardinals used seventeen players and so did the Phillies, but the St. Louis seventeen did the greater damage, taking an eleven-inning thing, 12 to 10.

The Red Sox had an 11-inning setto with the Browns, which resulted in a 5 to 4 score for the Bostonians.

The Reds managed to get back into the pennant hunt in the National League while twice beating the Braves, 9 to 3, and 8 to 2.

The Tigers found less difficulty with the Athletics, Naylor being the opening victim, five to two.

Grover Alexander is finding the east less and less what it once was. The Dodgers took him in a 6 to 5 game.

## CUBS, MYSTERY TEAM, STILL FLOUNDERING AROUND .500 MARK; WIN ONLY IN STREAKS

By SID MERCER.

NEW YORK, August 10.—The Cubs are the mystery of the National league. Led by a smart manager, backed by a wealthy owner and possessing individual talent of a high degree, they are floundering in fifth place. They have lost more games than they have won. In fact, they have been hovering around the .500 mark all season.

There are times when the latent strength in the Cubs is developed into brief winning streaks. But they are only winning streaks. The Cubs lose in streaks, too.

One would think that any team rallying behind such pitchers as Vaughn, Alexander, Tyler and Hendrix could win more than half its games, but there are the Cubs with 51 won and 52 lost.

Charley Herzog and Dave Robertson, ex-Giants, are appearing in the Cub lineup daily, but Fred Merkle has been replaced at first base by Turner Barber, who is an outfielder. The Cubs apparently suffer from lack of a punch. They have no heavy "clean-up" hitters.

A month ago it appeared that the Cubs might get together and stage a drive such as the Giants are putting on. Their case is now regarded as almost hopeless. They are just a ball team in the National league. This is one club in which here will be sweeping changes before another season rolls around.

**PETEE BOY!**

Just a night flash by fast mail to uncork you a real fuss-stirring idea that has five aces shaded!

Now, bolt this down:—no two people, unless they run a circus or write encyclopedias, ever agree offhand on which is a camel and which is a dromedary when you line the two up and check off one hump on one and two humps on the other. You can't do it with the sun shining!

Spill this "hump" question first time you're in a bunch of live ones—if you want to see fur fly! Never heard such a wind-jamming squall in my life as tonight when I passed it to our crowd! You know Betty Ellen Jones. Well, she said a dromedary was a he-camel hunting a date in the desert! And, Betty's "Vassar, '20"—rah, rah! All right, Betty!

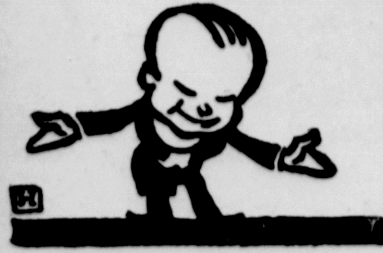

All you've got to do is dig out your deck of Camel cigarettes. That "bird" out front clinches the argument—apparently—but!

In the classic language of bigger business circles—"you tell 'em Cricket, Katy did!"

Report your luck quick. Try it on old Jig Jones! And listen, Peter. I'll shortly slip you some smoke news that'll make Jake's ideas rattle like a tin can tied to a towser dog's tail! S'long!

Yours for warm socks next winter!

**IT'S VERY SIMPLE**

To see why you should have your house insured—after it has burned. Better insure BEFORE it burns.

Now, before it's too late, let the Hartford insure you against fire and give you the most efficient fire prevention. Come in and ask about Hartford fire insurance. It will result to your great advantage.
